What are field groups?
A field group contains one or more fields. These can be applied to a single product, or groups of products.
What is a field?
A field can be a drop down list, checkboxes, file upload, etc.
Privacy Policy
Go to your Field Groups tab and click the arrow to the right of the field you want to edit, Select Form Editor

Your If statement will use the options for the field the conditional logic is on, this example only has one choice
When this option is selected, the fields will be displayed
Your Then statement has options to Show or Hide Field and Add a Product, in this example we will only be using Show Field
This part of the Then statement is what fields will be affected
Here is where we will select the fields we want to display
Give your conditional logic a name and click Save
